

About us Page : https://www.3ddx.com/about_us

A single window for 3d conversion and printing services.

Health Tech 3D brings to you an embodiment of conversion and printing services. Founded in the year 2019, Health tech 3d is a team of CAD/CAM professionals, technicians and doctors that delivers top notch service quality in 3d conversions and printing services worldwide. Equipped with high end software, advanced technology and expert professionals. Health Tech 3d can perform 3d conversions for any part of patient's anatomy and help to create anatomic models for pre-surgical planning and simulations. Health tech 3d is also an authorised fabrication centre and with its progressive 3d printing technology it also caters to fabricating services of 3d anatomic models that precisely replicates the patient's anatomy allowing the clinician to locate nerves, blood vessels, muscles, bones, glands, and anatomical defects.
